## Soundabsorbing Plantwall

Why choose between a green plant wall and sound absorbers when you can have both? Our plant walls double as acoustic solutions by incorporating additional sound-absorbing elements, achieving an acoustic class C rating.

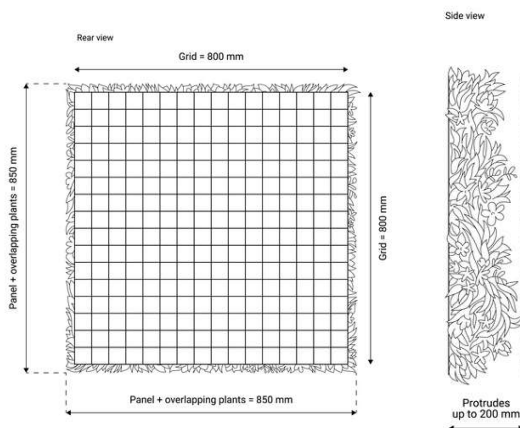

With a plant wall, green plants are integrated into the environment naturally and effectively.

### Measurments

Width	800, 1600, 2400, 3200 4000 mm etc.
Height	800, 1600, 2400, 3200 4000 mm etc.
Protudes	With soundabsorber up to 300 mm
Size	Mounted = 0,72 sqm

### Facts

Weight	8 kilo p.p
FR	During manufacturing, a fire-resistant protection (IFR) is added, making all our plant walls flame retardant.
Packaging	Delivered in 3-pack or 1-pack
Warranty	3 year
Options	Sound of nature

### Constrution and material

Each panel is composed of 85 plants consisting of about 10 different varieties. The plastic consists of recyclable PE which is then placed on a powder-coated steel frame.

Material:	Polythyen (PE), CAS-no 9002-88-4
	Steel, CAS-no 7439-89-6
	Powdercoating, CAS-nr 693-98-1
	Polyester fibers and recycled polyester textiles.
